Electronic, Compliant Documentation System
Make It Easy!

MYINSPECTION™
MAKE COMPLIANCE EASY

Laboratory Compliance Challenges

o CLIA regulation interpretation

o Documenting, implementing policy, procedure, logs/forms

o Locating information when you need it – paper, binders, outdated documentation

o Managing and changing documentation

o Lab Developed Testing (LDT) Requirements

o Staff compliance training

o Inspection prep

o Managing inspection outcomes – deficiencies/corrective action requirements

MyInspection Cloud-Based Software Helps!

o Be inspection ready – be and stay compliant

o User friendly, cost effective, use PC, tablet, phone

o Remote user access – view one or multiple labs with a single log-in

o Electronic policies, procedures, fillable logs/forms –done!

o Use your own documentation – import feature

o E-signatures and dating

o Calendar-post import date/events, receive email reminders

o Helpful hints – compliance and inspection tips

o Use as a compliance training tool – expedites onboarding

o Expert implementation and training

o Compliance guidance*

*Services do not include or take the place of a qualified laboratory director or licensed technical consultant. It is the responsibility
 of the laboratory to hire qualified personnel, handle ongoing oversight and manage the laboratories inspection/survey process
